Volume 11, published in 1984

Issue No. 5

Schnell, Russell C.

Arctic haze: Editorial

Geophys. Res. Lett., Vol. 11, No. 5, pp. 359-359, doi:10.1029/GL011i005p00359

[Abstract] [Full Article] [References (0)] [Special Section]

Schnell, R. C.

Arctic haze and the Arctic Gas and Aerosol Sampling Program (AGASP)

Geophys. Res. Lett., Vol. 11, No. 5, pp. 361-364, doi:10.1029/GL011i005p00361

[Abstract] [Full Article] [References (21)] [Special Section]

Joranger, E.; Ottar, B.

Air pollution studies in the Norwegian Arctic

Geophys. Res. Lett., Vol. 11, No. 5, pp. 365-368, doi:10.1029/GL011i005p00365

[Abstract] [Full Article] [References (4)] [Special Section]

Schnell, R. C.; Raatz, W. E.

Vertical and horizontal characteristics of Arctic haze during AGASP: Alaskan Arctic

Geophys. Res. Lett., Vol. 11, No. 5, pp. 369-372, doi:10.1029/GL011i005p00369

[Abstract] [Full Article] [References (9)] [Special Section]

Raatz, W. E.; Schnell, R. C.

Aerosol distributions and an Arctic aerosol front during AGASP: Norwegian Arctic

Geophys. Res. Lett., Vol. 11, No. 5, pp. 373-376, doi:10.1029/GL011i005p00373

[Abstract] [Full Article] [References (4)] [Special Section]

Bodhaine, B. A.; Dutton, E. G.; DeLuisi, J. J.

Surface aerosol measurements at Barrow during AGASP

Geophys. Res. Lett., Vol. 11, No. 5, pp. 377-380, doi:10.1029/GL011i005p00377

[Abstract] [Full Article] [References (8)] [Special Section]

Hansen, A. D. A.; Rosen, H.

Vertical distributions of particulate carbon, sulfur, and bromine in the Arctic haze and comparison with ground-level measurements at Barrow, Alaska

Geophys. Res. Lett., Vol. 11, No. 5, pp. 381-384, doi:10.1029/GL011i005p00381

[Abstract] [Full Article] [References (14)] [Special Section]

Dutton, Ellsworth G.; DeLuisi, John J.; Bodhaine, Barry A.

Features of aerosol optical depth observed at Barrow, March 10-20, 1983

Geophys. Res. Lett., Vol. 11, No. 5, pp. 385-388, doi:10.1029/GL011i005p00385

[Abstract] [Full Article] [References (14)] [Special Section]

Hoff, R. M.; Trivett, N. B. A.

Ground-based measurements of Arctic haze made at Alert, N.W.T., Canada, during the Arctic Gas and Aerosol Sampling Project (AGASP)

Geophys. Res. Lett., Vol. 11, No. 5, pp. 389-392, doi:10.1029/GL011i005p00389

[Abstract] [Full Article] [References (8)] [Special Section]

Radke, Lawrence F.; Lyons, Jamie H.; Hegg, Dean A.; Hobbs, Peter V.; Bailey, Ian H.

Airborne observations of Arctic aerosols. I: Characteristics of Arctic haze

Geophys. Res. Lett., Vol. 11, No. 5, pp. 393-396, doi:10.1029/GL011i005p00393

[Abstract] [Full Article] [References (8)] [Special Section]

Bailey, Ian H.; Radke, Lawrence F.; Lyons, Jamie H.; Hobbs, Peter V.

Airborne observations of Arctic aerosols. II: Giant particles

Geophys. Res. Lett., Vol. 11, No. 5, pp. 397-400, doi:10.1029/GL011i005p00397

[Abstract] [Full Article] [References (12)] [Special Section]

Radke, Lawrence F.; Hobbs, Peter V.; Bailey, Ian H.

Airborne observations of Arctic aerosols. III: Origins and effects of airmasses

Geophys. Res. Lett., Vol. 11, No. 5, pp. 401-404, doi:10.1029/GL011i005p00401

[Abstract] [Full Article] [References (13)] [Special Section]

Clarke, A. D.; Charlson, R. J.; Radke, L. F.

Airborne observations of Arctic aerosol, IV: Optical properties of Arctic haze

Geophys. Res. Lett., Vol. 11, No. 5, pp. 405-408, doi:10.1029/GL011i005p00405

[Abstract] [Full Article] [References (17)] [Special Section]

Shaw, Glenn E.

Microparticle size spectrum of Arctic haze

Geophys. Res. Lett., Vol. 11, No. 5, pp. 409-412, doi:10.1029/GL011i005p00409

[Abstract] [Full Article] [References (9)] [Special Section]

Cahill, Thomas A.; Eldred, Robert A.

Elemental composition of Arctic particulate matter

Geophys. Res. Lett., Vol. 11, No. 5, pp. 413-416, doi:10.1029/GL011i005p00413

[Abstract] [Full Article] [References (10)] [Special Section]

Lazrus, Allan L.; Ferek, Ronald J.

Acidic sulfate particles in the winter Arctic atmosphere

Geophys. Res. Lett., Vol. 11, No. 5, pp. 417-419, doi:10.1029/GL011i005p00417

[Abstract] [Full Article] [References (11)] [Special Section]

Shapiro, M. A.; Schnell, R. C.; Parungo, F. P.; Oltmans, S. J.; Bodhaine, B. A.

El Chichon volcanic debris in an Arctic tropopause fold

Geophys. Res. Lett., Vol. 11, No. 5, pp. 421-424, doi:10.1029/GL011i005p00421

[Abstract] [Full Article] [References (14)] [Special Section]

Hov, Ø.; Penkett, S. A.; Isaksen, I. S. A.; Semb, A.

Organic gases in the Norwegian Arctic

Geophys. Res. Lett., Vol. 11, No. 5, pp. 425-428, doi:10.1029/GL011i005p00425

[Abstract] [Full Article] [References (18)] [Special Section]

Berg, Walter W.; Heidt, Leroy E.; Pollock, Walter; Sperry, Paul D.; Cicerone, Ralph J.; Gladney, Ernest S.

Brominated organic species in the Arctic atmosphere

Geophys. Res. Lett., Vol. 11, No. 5, pp. 429-432, doi:10.1029/GL011i005p00429

[Abstract] [Full Article] [References (16)] [Special Section]

Rasmussen, R. A.; Khalil, M. A. K.

Gaseous bromine in the Arctic and Arctic haze

Geophys. Res. Lett., Vol. 11, No. 5, pp. 433-436, doi:10.1029/GL011i005p00433

[Abstract] [Full Article] [References (10)] [Special Section]

Khalil, M. A. K.; Rasmussen, R. A.

Statistical analysis of trace gases in Arctic haze

Geophys. Res. Lett., Vol. 11, No. 5, pp. 437-440, doi:10.1029/GL011i005p00437

[Abstract] [Full Article] [References (15)] [Special Section]

Ottar, Brynjulf; Pacyna, Jozef M.

Sources of Ni, Pb, and Zn during the Arctic Episode in March 1983

Geophys. Res. Lett., Vol. 11, No. 5, pp. 441-444, doi:10.1029/GL011i005p00441

[Abstract] [Full Article] [References (14)] [Special Section]

Semb, A.; Brækkan, R.; Joranger, E.

Major ions in Spitsbergen snow samples

Geophys. Res. Lett., Vol. 11, No. 5, pp. 445-448, doi:10.1029/GL011i005p00445

[Abstract] [Full Article] [References (7)] [Special Section]

Raatz, Wolfgang E.

Tropospheric circulation patterns during the Arctic Gas and Aerosol Sampling Program (AGASP), March/April 1983

Geophys. Res. Lett., Vol. 11, No. 5, pp. 449-452, doi:10.1029/GL011i005p00449

[Abstract] [Full Article] [References (15)] [Special Section]

Harris, J. M.

Trajectories during AGASP

Geophys. Res. Lett., Vol. 11, No. 5, pp. 453-456, doi:10.1029/GL011i005p00453

[Abstract] [Full Article] [References (11)] [Special Section]

Iversen, Trond

On the atmospheric transport of pollution to the Arctic

Geophys. Res. Lett., Vol. 11, No. 5, pp. 457-460, doi:10.1029/GL011i005p00457

[Abstract] [Full Article] [References (15)] [Special Section]

Rosen, H.; Hansen, A. D. A.

Role of combustion-generated carbon particles in the absorption of solar radiation in the Arctic haze

Geophys. Res. Lett., Vol. 11, No. 5, pp. 461-464, doi:10.1029/GL011i005p00461

[Abstract] [Full Article] [References (19)] [Special Section]

Valero, Francisco P. J.; Ackerman, Thomas P.; Gore, Warren J. Y.

The absorption of solar radiation by the Arctic atmosphere during the haze season and its effects on the radiation balance

Geophys. Res. Lett., Vol. 11, No. 5, pp. 465-468, doi:10.1029/GL011i005p00465

[Abstract] [Full Article] [References (15)] [Special Section]

Ackerman, Thomas P.; Valero, Francisco P. J.

The vertical structure of Arctic haze as determined from airborne net-flux radiometer measurements

Geophys. Res. Lett., Vol. 11, No. 5, pp. 469-472, doi:10.1029/GL011i005p00469

[Abstract] [Full Article] [References (15)] [Special Section]

Bonté, Ph.; Delacotte, O.; Renard, M.; Laj, C.; Boclet, D.; Jehanno, C.; Rocchia, R.

An iridium rich layer at the Cretaceous/Tertiary boundary in the Bidart Section (southern France)

Geophys. Res. Lett., Vol. 11, No. 5, pp. 473-476, doi:10.1029/GL011i005p00473

[Abstract] [Full Article] [References (11)]

Gordon, Richard G.

A Paleocene North American paleomagnetic pole incorporating declination-Only data

Geophys. Res. Lett., Vol. 11, No. 5, pp. 477-480, doi:10.1029/GL011i005p00477

[Abstract] [Full Article] [References (15)]

Powell, Christine A.; Meltzer, Anne S.

Scattering of P-waves beneath scarlet in Southern California

Geophys. Res. Lett., Vol. 11, No. 5, pp. 481-484, doi:10.1029/GL011i005p00481

[Abstract] [Full Article] [References (11)]

Abbott, Dallas; Menke, William; Hobart, Michael; Anderson, Roger N.; Embley, Robert W.

Correlated sediment thickness, temperature gradient and excess pore pressure in a marine fault block basin

Geophys. Res. Lett., Vol. 11, No. 5, pp. 485-488, doi:10.1029/GL011i005p00485

[Abstract] [Full Article] [References (9)]

Sjogren, W. L.; Bills, B. G.; Mottinger, N. A.

Venus: Ishtar gravity anomaly

Geophys. Res. Lett., Vol. 11, No. 5, pp. 489-491, doi:10.1029/GL011i005p00489

[Abstract] [Full Article] [References (9)]

Herbert, Floyd; Smith, Larry D.; Sonett, C. P.

High-frequency wave normals in the solar wind

Geophys. Res. Lett., Vol. 11, No. 5, pp. 492-495, doi:10.1029/GL011i005p00492

[Abstract] [Full Article] [References (19)]

Fitzenreiter, Richard J.; Klimas, Alexander J.; Scudder, Jack D.

Detection of bump-on-tail reduced electron velocity distributions at the electron foreshock boundary

Geophys. Res. Lett., Vol. 11, No. 5, pp. 496-499, doi:10.1029/GL011i005p00496

[Abstract] [Full Article] [References (15)]

Sauvaud, J. A.; Saint-Marc, A.; Dandouras, J.; Rème, H.; Korth, A.; Kremser, G.; Parks, G. K.

A multisatellite study of the plasma sheet dynamics at substorm onset

Geophys. Res. Lett., Vol. 11, No. 5, pp. 500-503, doi:10.1029/GL011i005p00500

[Abstract] [Full Article] [References (12)]

Ipavich, F. M.; Galvin, A. B.; Gloeckler, G.; Hovestadt, D.; Klecker, B.; Scholer, M.

Energetic (>100 keV) O^+ ions in the plasma sheet

Geophys. Res. Lett., Vol. 11, No. 5, pp. 504-507, doi:10.1029/GL011i005p00504

[Abstract] [Full Article] [References (16)]

Bujarbarua, S.; Sarma, S. N.; Nambu, M.; Fujiyama, H.

Theory of chorus-related electrostatic bursts

Geophys. Res. Lett., Vol. 11, No. 5, pp. 508-510, doi:10.1029/GL011i005p00508

[Abstract] [Full Article] [References (13)]

Boehm, M. H.; Carlson, C. W.; McFadden, J.; Mozer, F. S.

Observations of double layer-like and soliton-like structures in the ionosphere

Geophys. Res. Lett., Vol. 11, No. 5, pp. 511-514, doi:10.1029/GL011i005p00511

[Abstract] [Full Article] [References (12)]

Kellogg, P. J.; Monson, S. J.; Whalen, B. A.

Observation of double-layer-like structures at rocket altitudes

Geophys. Res. Lett., Vol. 11, No. 5, pp. 515-518, doi:10.1029/GL011i005p00515

[Abstract] [Full Article] [References (10)]

Perraut, S.; Bjørna, N.; Brekke, A.; Baron, M.; Kofman, W.; Lathuillière, C.; Lejeune, G.

Experimental evidence of non-isotropic temperature distributions of ions observed by EISCAT in the auroral F-region

Geophys. Res. Lett., Vol. 11, No. 5, pp. 519-522, doi:10.1029/GL011i005p00519

[Abstract] [Full Article] [References (16)]

Frey, A.; Stubbe, P.; Kopka, H.

First experimental evidence of HF produced electron density irregularities in the polar ionosphere; Diagnosed by UHF radio star scintillations

Geophys. Res. Lett., Vol. 11, No. 5, pp. 523-526, doi:10.1029/GL011i005p00523

[Abstract] [Full Article] [References (15)]

Mende, S. B.; Banks, P. M.; Klingelsmith, D. A., III

Observation of orbiting vehicle induced luminosities on the STS-8 mission

Geophys. Res. Lett., Vol. 11, No. 5, pp. 527-530, doi:10.1029/GL011i005p00527

[Abstract] [Full Article] [References (10)]

Wharton, L. E.; Spencer, N. W.; Mayr, H. G.

The Earth's thermospheric superrotation from Dynamics Explorer 2

Geophys. Res. Lett., Vol. 11, No. 5, pp. 531-533, doi:10.1029/GL011i005p00531

[Abstract] [Full Article] [References (10)]

Hernandez, G.; Smith, J. L.

Mesospheric wind determinations and the P_1 $(2)_{c,d}$ lines of the X $^2\Pi$ OH (8-3) band

Geophys. Res. Lett., Vol. 11, No. 5, pp. 534-537, doi:10.1029/GL011i005p00534

[Abstract] [Full Article] [References (24)]

Smith, S. A.; Fritts, D. C.

Poker Flat MST Radar and meteorological rocketsonde wind profile comparisons

Geophys. Res. Lett., Vol. 11, No. 5, pp. 538-540, doi:10.1029/GL011i005p00538

[Abstract] [Full Article] [References (8)]

Fong Chao, B.

Interannual length-of-day variation with relation to the southern oscillation/El Nino

Geophys. Res. Lett., Vol. 11, No. 5, pp. 541-544, doi:10.1029/GL011i005p00541

[Abstract] [Full Article] [References (10)]

Taylor, W. L.; Brandes, E. A.; Rust, W. D.; MacGorman, D. R.

Lightning activity and severe storm structure

Geophys. Res. Lett., Vol. 11, No. 5, pp. 545-548, doi:10.1029/GL011i005p00545

[Abstract] [Full Article] [References (8)]

Leifer, R.; Juzdan, Z. R.; Larsen, R.

COS in the stratosphere: El Chichon observations

Geophys. Res. Lett., Vol. 11, No. 5, pp. 549-552, doi:10.1029/GL011i005p00549

[Abstract] [Full Article] [References (13)]

Chuan, R. L.; Woods, D. C.

The appearance of carbon aerosol oarticles in the lower stratosphere

Geophys. Res. Lett., Vol. 11, No. 5, pp. 553-556, doi:10.1029/GL011i005p00553

[Abstract] [Full Article] [References (13)]

Pitts, James N., Jr.; Biermann, Heinz W.; Atkinson, Roger; Winer, Arthur M.

Atmospheric implications of simultaneous nighttime measurements of NO_3 radicals and HONO

Geophys. Res. Lett., Vol. 11, No. 5, pp. 557-560, doi:10.1029/GL011i005p00557

[Abstract] [Full Article] [References (30)]

Patrinos, A. A. N.; Brown, R. M.

Mesoscale wetfall chemistry around Philadelphia during frontal storms

Geophys. Res. Lett., Vol. 11, No. 5, pp. 561-564, doi:10.1029/GL011i005p00561

[Abstract] [Full Article] [References (14)]
