

GK 2012

22nd International Symposium on Gas Kinetics

June 18-22, 2012
Boulder, Colorado USA

The biennial symposium brings together leaders and scholars in theoretical and experimental studies related to research in chemical kinetics. A combination of invited plenary and contributed oral and poster presentations provide an open forum for discussion of the latest advances in the field. The inaugural Sidney Benson Keynote address and the Polanyi Lecture highlight the agenda.

Featured Themes

- Alternative Fuels and Renewable Energy
- Combustion Chemistry
- Atmospheric Chemistry
- Fundamentals of Chemical Reactivity
- Experimental Methods and Applications
- Ions and Chemical Processes
