

0004

1 WELCOMING REMARKS

2

3 DR. SPINRAD: ALOHA AND GOOD MORNING. MY  
4 NAME IS RICK SPINRAD. I'M FROM NOAA. I'M A  
5 CO-CHAIR OF THE CONFERENCE. I'M DELIGHTED TO WELCOME  
6 YOU ALL HERE TODAY.

7 FRIENDS, ESTEEMED GUESTS, COLLEAGUES, THIS  
8 TRULY IS A SPECIAL OCCASION. WE ARE SCHEDULED TO  
9 HAVE A NUMBER OF IMPORTANT PRESENTATIONS. WE'RE  
10 GOING TO START THIS MORNING WITH PRESENTATIONS FROM A  
11 DISTINGUISHED PANEL OF SPEAKERS, INCLUDING MR. TIM  
12 KEENEY, NOAA'S DEPUTY ASSISTANT SECRETARY; DR. KEN  
13 MELVILLE, SCRIPPS INSTITUTION OF OCEANOGRAPHY; AND  
14 DR. LEN BARRIE OF THE WORLD METEOROLOGICAL  
15 ORGANIZATION.

16 WE HAVE A SPECIAL TREAT TODAY BEFORE WE GET  
17 STARTED WITH PRESENTATIONS. WE ARE HONORED TO HAVE  
18 WITH US GOVERNOR LINGLE'S LIAISON FOR WEST HAWAII,  
19 MR. ANDY SMITH, WHO WILL SHARE WITH US A PROCLAMATION  
20 FROM GOVERNOR LINGLE.

21 ANDY, PLEASE JOIN US ON STAGE.

22 [Andy Smith's presentation about

Nov. 28, 2007 being "CO2 Observing Day in Hawaii has been removed from  
this file."]

12 (APPLAUSE)

13 DR. SPINRAD: THANK YOU, ANDY.

14 IT'S APPROPRIATE THAT ON CO2 OBSERVING DAY  
15 HERE IN HAWAII, WE'RE GOING TO HAVE A LOT OF SPEAKING  
16 DONE HERE TODAY, A LOT OF IMPORTANT INFORMATION.

17 IT REALLY IS AN HONOR AND PRIVILEGE FOR ME  
18 TO BE HERE WITH SO MANY DISTINGUISHED LEADERS OF THE  
19 SCIENTIFIC COMMUNITY, OF GOVERNMENT, OF BUSINESS, TO  
20 CELEBRATE THIS IMPORTANT ANNIVERSARY OF THE GLOBAL  
21 CARBON DIOXIDE RECORD AND, ALSO, TO EXAMINE SOME OF  
22 THE EFFORTS TO MANAGE CO2 EMISSIONS TODAY AND IN THE  
23 FUTURE. WE WILL HAVE AN EXTRAORDINARY SET OF  
24 DISCUSSIONS SPANNING THAT WHOLE SPECTRUM OF  
25 ACTIVITIES.

0008

1 I WANT TO THANK OUR SPONSORS. AS ALL OF  
2 YOU KNOW, A CONFERENCE LIKE THIS CAN'T BE PUT  
3 TOGETHER WITHOUT EXTRAORDINARY EFFORTS ON THE PART OF  
4 SPONSORS AND VOLUNTEERS; AND SPECIFICALLY, I WOULD  
5 LIKE TO THANK PEABODY ENERGY, SCRIPPS INSTITUTION OF  
6 OCEANOGRAPHY, THE NATIONAL MARINE SANCTUARIES  
7 FOUNDATION, SCIENCE AND TECHNOLOGY CORPORATION (STC),  
8 THE WORLD METEOROLOGICAL ORGANIZATION (WMO), THE  
9 CHICAGO CLIMATE EXCHANGE, AND STEELCOAST GRAPHIC  
10 DESIGN.

11 LET'S GIVE THEM A ROUND OF APPLAUSE,  
12 PLEASE.

13 (APPLAUSE)

14 I ALSO WANT TO THANK THE PROGRAM AND  
15 LOGISTICS COMMITTEES, OUR SPEAKERS AND PANELISTS, AND  
16 ALL WHO HAVE LABORED DILIGENTLY TO ENSURE THIS  
17 CONFERENCE IS A SUCCESS.

18 SPECIAL THANKS GO TO THE SCRIPPS  
19 INSTITUTION OF OCEANOGRAPHY, AS A WORKING PARTNER IN  
20 THIS EFFORT, AND OF COURSE, AS THE ORGANIZATION  
21 THROUGH WHICH DR. CHARLES DAVID KEELING INITIATED  
22 THIS LONG-TERM RECORD.

23 IN 1957 WHEN DR. KEELING BEGAN MEASURING  
24 ATMOSPHERIC CO2 AT MAUNA LOA AND AT THE SOUTH POLE,  
25 THERE WAS REALLY VERY LITTLE KNOWN ABOUT CO2 IN THE

0009

1 ATMOSPHERE, AND NO RELIABLE ATMOSPHERIC RECORD  
2 EXISTED AT THAT TIME. FEW COULD HAVE PREDICTED  
3 THE IMPORTANCE THAT HIS INNOVATIVE RESEARCH WOULD  
4 HAVE FOR GENERATIONS TO COME. THIS WILL BE A  
5 PERSISTENT THEME IN THE PRESENTATIONS OVER THE NEXT  
6 THREE DAYS, PARTICULARLY IMPORTANT IN THIS DAY AND  
7 AGE WHEN WE ARE TRYING TO MAKE THE COMPELLING  
8 ARGUMENTS ABOUT THE NEED FOR SUSTAINED HIGH-QUALITY  
9 CLIMATE DATA RECORDS.

10 OVER THE LAST HALF CENTURY NOAA AND MEMBER  
11 COUNTRIES OF THE WORLD METEOROLOGICAL ORGANIZATION  
12 HAVE EXPANDED SIGNIFICANTLY ON DR. KEELING'S INITIAL  
13 EFFORTS, BUILDING AN INTERNATIONAL GLOBAL CLIMATE  
14 OBSERVATIONAL NETWORK; AND TODAY THE CO2 RECORD IS THE  
15 BACKBONE FOR RESEARCH INTO UNDERSTANDING GREENHOUSE  
16 GASSES AND OUR CHANGING CLIMATE. NOAA AND OTHER  
17 SCIENTISTS DEPEND ON ACCURATE LONG-TERM MEASUREMENTS,  
18 AND SOCIETY INCREASINGLY REQUIRES INFORMATION THAT IS  
19 NOT ONLY RELEVANT BUT ALSO ACCURATE AND  
20 COMPREHENSIVE. THE SCIENTIFIC PROCESS AND THE VALUE  
21 OF CLIMATE RESEARCH IS BUILT UPON ACCURATE DATA  
22 DERIVED FROM OBSERVATIONS.

23 CLIMATE RESEARCH CONDUCTED BY NOAA AND  
24 OTHER SCIENCE ORGANIZATIONS, MANY OF WHOM ARE  
25 REPRESENTED HERE AT THIS CONFERENCE, HELPS TO FRAME THE

0010

1 QUESTIONS THAT NEED TO BE ASKED, HELPS TO FIND ANSWERS,  
2 AND HELPS POLICY MAKERS MAKE INFORMED DECISIONS THAT  
3 IMPACT OUR WORLD AND OUR FUTURE. AND WHILE, OF  
4 COURSE, THIS IS A SCIENTIFIC CONFERENCE, THE POLICY  
5 SIDE IS A CRITICAL COMPONENT. AND IT IS IMPORTANT TO  
6 POINT OUT THAT DATA FROM THIS NETWORK AND THE  
7 ANALYSIS AND MODELS THAT FOLLOW INFORM NATIONAL AND  
8 INTERNATIONAL ASSESSMENTS OF GLOBAL CLIMATE CHANGE,  
9 INCLUDING THE INTERGOVERNMENTAL PANEL ON CLIMATE  
10 CHANGE -- IPCC -- ASSESSMENT REPORTS.

11 THE IPCC HAS, OF COURSE, RECEIVED  
12 CONSIDERABLE ATTENTION THIS YEAR; AND WITH THE  
13 RELEASE OF THE FOURTH ASSESSMENT REPORT AND THE NEWS  
14 THAT THEY HAVE BEEN AWARDED A NOBEL PEACE PRIZE, WE  
15 ARE ALL DELIGHTED. THIS AWARD RECOGNIZES THE EFFORTS  
16 OF SCIENTISTS WORLDWIDE CONTRIBUTING TOWARD THIS  
17 IMPORTANT BODY OF SCIENTIFIC LITERATURE.

18 I POINT OUT IT INCLUDES, JUST BY WAY OF

19 EXAMPLE, MORE THAN 120 SCIENTISTS IN MY OWN  
20 ORGANIZATION, NOAA, SOME OF WHOM WERE HONORED TO BE  
21 AT A CEREMONY AT THE WHITE HOUSE JUST TWO DAYS AGO.  
22 AND AS I'M SURE YOU'RE ALL AWARE, THE IPCC WORKING  
23 GROUP I REPORT IN FEBRUARY ON PHYSICAL SCIENCE BASIS,  
24 CO-CHAIRER BY NOAA'S OWN SUSAN SOLOMON IN THE  
25 AUDIENCE, MADE THE STRONGEST STATEMENTS EVER,

0011

1 INCLUDING THE FOLLOWING:

2 THE WARMING OF THE CLIMATE SYSTEM IS  
3 UNEQUIVOCAL.

4 MOST OF THE OBSERVED INCREASE IN  
5 GLOBALLY-AVERAGED TEMPERATURES SINCE THE MID 20TH  
6 CENTURY IS VERY LIKELY DUE TO THE OBSERVED INCREASE  
7 IN ANTHROPOGENIC GREENHOUSE GAS CONCENTRATIONS.

8 THE LONG-TERM TREND OF DECLINING CO2  
9 EMISSIONS PER UNIT OF ENERGY SUPPLIED REVERSED AFTER  
10 2000.

11 AND CARBON DIOXIDE IS THE MOST IMPORTANT  
12 ANTHROPOGENIC GREENHOUSE GAS.

13 SINCE FEBRUARY, WORKING GROUPS II AND III  
14 HAVE RELEASED THEIR ASSESSMENTS, AND ALMOST TWO WEEKS  
15 AGO THE IPCC SYNTHESIS REPORT WAS RELEASED.

16 SOME OF THE KEY FINDINGS OF WORKING  
17 GROUP II INCLUDE THE FOLLOWING:

18 MANY NATURAL SYSTEMS ARE BEING AFFECTED BY  
19 REGIONAL CLIMATE CHANGES.

20 REGIONAL-SCALE CHANGES INCLUDE A VERY  
21 LIKELY INCREASE IN FREQUENCY OF HOT EXTREMES, HEAT  
22 WAVES, AND HEAVY PRECIPITATION.

23 AND UNMITIGATED CLIMATE CHANGE WOULD, IN  
24 THE LONG TERM, BE LIKELY TO EXCEED THE CAPACITY OF  
25 NATURAL, MANAGED, AND HUMAN SYSTEMS TO ADAPT.

0012

1 FINALLY, SOME OF THE KEY FINDINGS OF  
2 WORKING GROUP III THAT ARE RELEVANT TO WHAT WE WILL  
3 BE DISCUSSING OVER THE NEXT SEVERAL DAYS INCLUDE:

4 THERE IS HIGH AGREEMENT AND MUCH EVIDENCE  
5 OF SUBSTANTIAL ECONOMIC POTENTIAL FOR THE MITIGATION  
6 OF GLOBAL GREENHOUSE GAS EMISSIONS OVER THE COMING  
7 DECADES.

8 THERE IS HIGH AGREEMENT AND MUCH EVIDENCE  
9 THAT MITIGATION ACTIONS CAN RESULT IN NEAR-TERM  
10 CO-BENEFITS; FOR EXAMPLE, IMPROVED HEALTH DUE TO  
11 REDUCED AIR POLLUTION.

12 A WIDE VARIETY OF POLICIES AND INSTRUMENTS  
13 ARE AVAILABLE TO GOVERNMENTS TO CREATE THE INCENTIVES  
14 FOR MITIGATION ACTION.

15 AND MANY IMPACTS CAN BE REDUCED, DELAYED,  
16 OR AVOIDED BY MITIGATION.

17 THIS CONFERENCE IS NOT INTENDED TO ANSWER  
18 ALL QUESTIONS AND ACHIEVE GREAT SOLUTIONS IN THREE  
19 DAYS, AND IT'S NOT INTENDED TO REPEAT THE EFFORTS  
20 THAT WERE SO WELL CARRIED OUT BY THE IPCC. THIS  
21 CONFERENCE IS AN OPPORTUNITY TO ACKNOWLEDGE AND HONOR  
22 PAST RESEARCH ACCOMPLISHMENTS RELATING TO THE  
23 INCREASED CO2 IN THE ATMOSPHERE WHILE AT THE SAME TIME

24 EXPLORING THE PATH FOR FUTURE RESEARCH THAT MEETS  
25 SOCIETY'S NEEDS.

0013

1 I LOOK FORWARD TO EXPLORING THESE CRITICAL  
2 ISSUES WITH YOU OVER THE NEXT SEVERAL DAYS.

3 I WOULD LIKE TO POINT OUT TO THE AUDIENCE  
4 THAT BECAUSE OF THE IMPORTANCE AND QUALITY OF THE  
5 DISCUSSIONS THAT WE WILL BE HAVING HERE, WE ARE  
6 KEEPING THE DISCUSSION ON RECORD. IT IS, IN FACT,  
7 BEING RECORDED. MORE IMPORTANTLY, IT WILL BE  
8 REPORTED AS A SERIES OF PROCEEDINGS IN WEB FORMAT,  
9 AND ALL OF THE POWERPOINT PRESENTATIONS THAT YOU SEE  
10 WILL BE POSTED TO THE WEBSITE WITHIN A WEEK; AND IF  
11 YOU HAVE FORGOTTEN THAT WEBSITE, WHICH WE WILL  
12 REPEATEDLY REMIND YOU OF, IT IS CO2CONFERENCE.ORG.

13 NOW IT IS MY PLEASURE TO INTRODUCE A VIDEO  
14 MESSAGE FROM THE HONORABLE DANIEL INOUE, ONE OF THE  
15 GREAT SENATORS AND AMERICANS OF OUR TIME. THE  
16 SENATOR IS A WAR HERO WHO WAS SINGLED OUT A FEW WEEKS  
17 AGO DURING A SPEECH TO A JOINT SESSION OF CONGRESS BY  
18 FRENCH PRESIDENT NICOLAS SARKOZY FOR HIS BRAVERY  
19 WHILE FIGHTING TO LIBERATE EUROPE DURING WORLD  
20 WAR II. IN ITALY, HE LOST HIS RIGHT ARM IN COMBAT  
21 AND WAS LATER AWARDED THE HIGHEST HONOR THAT THIS  
22 COUNTRY CAN GIVE FOR MILITARY VALOR, THE MEDAL OF  
23 HONOR.

24 AFTER THE WAR HE FOUGHT FOR STATEHOOD FOR  
25 HAWAII AND BECAME ITS FIRST CONGRESSMAN IN 1959.

0014

1 AFTER THAT HE WAS ELECTED TO THE U.S. SENATE IN 1962  
2 AND HAS SERVED FOR 45 DISTINGUISHED YEARS IN THAT  
3 BODY. HE IS CURRENTLY CHAIRMAN OF THE SENATE  
4 COMMERCE, SCIENCE, AND TRANSPORTATION COMMITTEE,  
5 WHICH WE HOLD NEAR AND DEAR TO MY WHOLE ORGANIZATION.

6 SENATOR INOUE HAS BEEN A CHAMPION OF NOAA  
7 AND ITS CLIMATE RESEARCH SINCE ITS CREATION IN 1970.  
8 IT IS REALLY HARD TO DO A 37-YEAR FRIENDSHIP JUSTICE  
9 IN JUST A FEW MINUTES, BUT I WOULD JUST LIKE TO  
10 CAPTURE SOME OF HIS ACCOMPLISHMENTS AND GOALS IN  
11 THREE KEY THEMES:

12 FIRST, HE'S FOUGHT TO SAVE THIS STATE'S  
13 MAJESTIC CORAL REEFS. HE'S FUNDED MANY PROJECTS TO  
14 ADVANCE THE SCIENTIFIC STUDY, RESEARCH, AND  
15 MANAGEMENT OF THE WESTERN PACIFIC CORALS, AND THEN  
16 SECURED THE SHIPS FOR THE NOAA CORPS TO CARRY OUT  
17 THIS CRITICAL RESEARCH. IN 2006 THE SENATOR WAS  
18 NAMED "CORAL CHAMPION" BY THE U.S. CORAL REEF TASK  
19 FORCE AND RECEIVED A SECOND AWARD FROM THE FRIENDS OF  
20 THE COAST.

21 SECONDLY, SENATOR INOUE INTRODUCED  
22 LEGISLATION IN 1990 TO ESTABLISH THE HAWAIIAN ISLANDS  
23 HUMPBACK WHALE NATIONAL MARINE SANCTUARY AND LATER AN  
24 EDUCATION CENTER FOR VISITORS. IN 2004 HE WAS  
25 AWARDED THE NATIONAL MARINE SANCTUARY FOUNDATION'S

0015

1 2004 "STEWARD OF THE SANCTUARY AWARD" FOR THAT WORK.  
2 AND THIRD, SENATOR INOUE HAS WORKED

3 TIRELESSLY TO PRESERVE MARINE MAMMALS, SAVE  
4 ENDANGERED AND THREATENED SEA TURTLES, MONK SEALS,  
5 AND BUILD SUSTAINABLE FISHERIES IN THE WESTERN  
6 PACIFIC.

7 WITH THAT, PLEASE JOIN ME IN ENJOYING A  
8 VIDEO MESSAGE FROM SENATOR INOUE.  
9 (BY VIDEOTAPE)

10

[Sen. Inouye's video presentation has been removed from this  
file.]

19 (APPLAUSE)

20 DR. SPINRAD: ONCE AGAIN, I WOULD LIKE TO  
21 THANK THE SENATOR AND HIS STAFF FOR SENDING THIS  
22 MESSAGE. MANY OF THE STAFF HAVE BEEN INVOLVED IN  
23 EARLY DEVELOPMENTS OF THIS CONFERENCE, AND I'M DELIGHTED, IN  
24 FACT, THAT WE'LL HAVE AN OPPORTUNITY TO ENGAGE  
25 ADDITIONAL CONGRESSIONAL STAFF DURING THE COURSE OF

0017

1 THIS MEETING, SEVERAL OF WHOM HAVE JOINED US FOR THIS  
2 CONFERENCE.

3 IT IS NOW MY HONOR TO INTRODUCE  
4 DR. MELVILLE. KEN MELVILLE IS THE DEPUTY DIRECTOR  
5 FOR RESEARCH AT SCRIPPS INSTITUTION OF OCEANOGRAPHY;  
6 AND AMONG HIS MANY HONORS, HE HAS BEEN NAMED A FELLOW  
7 OF THE ACOUSTICS SOCIETY, AND THE AMERICAN PHYSICAL  
8 SOCIETY. HE WAS A JOHN SIMON GUGGENHEIM MEMORIAL  
9 FELLOWSHIP WINNER AND A HAWKER SIDDELEY FELLOW, AS  
10 WELL AS A COMMONWEALTH SCHOLAR IN AUSTRALIA.

11 SCRIPPS IS, OF COURSE, A LONG-STANDING  
12 PARTNER WITH NOAA IN ITS GLOBAL MONITORING EFFORT AND  
13 IS THE INSTITUTION, OF COURSE, WHERE DR. KEELING  
14 SPENT MOST OF HIS ACADEMIC CAREER.

15 DR. MELVILLE IS A PROFESSOR OF  
16 OCEANOGRAPHY, AND A GOOD DEAL OF HIS WORK HAS FOCUSED  
17 ON ISSUES OF AIR-SEA INTERACTION, A PHYSICAL PROCESS  
18 GERMANE, OF COURSE, TO THE EXCHANGE OF CO2 BETWEEN THE  
19 OCEAN AND ATMOSPHERE; AND, OF COURSE, AS MANY OF YOU  
20 WILL OBSERVE, DR. MELVILLE IS PART OF THE AUSTRALIAN  
21 INVASION OCCURRING AT SCRIPPS THESE DAYS. SO IT'S,  
22 PERHAPS, APPROPRIATE THAT WE HAVE HIM HERE HALFWAY  
23 BETWEEN SAN DIEGO AND AUSTRALIA. HE HAS A LONG AND  
24 DISTINGUISHED CAREER AT SCRIPPS, AND WE ARE PROUD AND  
25 EXCITED THAT HE IS HERE TO REPRESENT SCRIPPS, ONE OF

0018

1 OUR CONFERENCE SPONSORS.

2 PLEASE WELCOME DR. KEN MELVILLE.

3 (APPLAUSE)

4 [Ken Melville's presentation has been removed from this  
file.]

2 (APPLAUSE).

3 DR. SPINRAD: THANK YOU, KEN.

4 HOW APPROPRIATE FOR THE NEXT INTRODUCTION  
5 TO HAVE HEARD ROGER REVELLE'S NAME INVOKED IN KEN'S  
6 PRESENTATION. ROGER REVELLE, OF COURSE, COMBINED A

7 WONDERFUL BLEND OF SCIENTIFIC, CIVILIAN GOVERNMENT  
8 SERVICE, AND NAVAL SERVICE; AND AS YOU'LL SEE IN MY  
9 NEXT INTRODUCTION, THERE ARE SOME PARALLELS WITH TIM  
10 KEENEY'S ACTIVITIES.

11 TIM IS THE NOAA DEPUTY ASSISTANT SECRETARY  
12 FOR OCEANS AND ATMOSPHERE, AND HE IS HERE TODAY ON  
13 BEHALF OF NOAA LEADERSHIP.

14 SINCE TIM JOINED NOAA BACK IN 2002, HE HAS  
15 BEEN RESPONSIBLE FOR MUCH OF THE ENVIRONMENTAL POLICY  
16 AND STRATEGIC PLANNING AND PROGRAM ANALYSIS AT NOAA.  
17 HIS MAJOR FOCUS HAS BEEN ON CROSS-CUTTING PROGRAMS  
18 SUCH AS CORAL REEFS, INVASIVE SPECIES, HABITAT  
19 RESTORATION, AND OBSERVATION SYSTEMS. TIM BROUGHT  
20 WITH HIM TO NOAA MANY YEARS OF VALUABLE EXPERIENCE IN  
21 NATURAL RESOURCE CONSERVATION AND MANAGEMENT, AS WELL  
22 AS REGULATORY DECISION MAKING. HE HAS BEEN A  
23 CRITICAL ASSET IN THIS REGARD. PREVIOUSLY HE SERVED  
24 AS THE COMMISSIONER FOR THE CONNECTICUT DEPARTMENT OF  
25 ENVIRONMENTAL PROTECTION, AS NOAA GENERAL COUNSEL, AS

0024

1 THE DIRECTOR OF THE RHODE ISLAND DEPARTMENT OF  
2 ENVIRONMENTAL MANAGEMENT, AND ALSO AS A FORMER NAVY  
3 SEAL WHO HOLDS THE SOMEWHAT SINGULAR HONOR OF HAVING  
4 BEEN JESSE VENTURA'S DIVE BUDDY, AND HE RECENTLY  
5 RETIRED WITH THE RANK OF CAPTAIN FROM THE U.S. NAVY  
6 RESERVES.

7 PLEASE WELCOME TIM KEENEY.

8 (APPLAUSE)

9 [Tim Keeney's presentation has been removed from this  
file.]

16 (APPLAUSE)

17 DR. SPINRAD: THANK YOU, TIM.

18 ON BEHALF OF ALL OF THE LINE OFFICE  
19 SCIENTISTS IN NOAA AND THE SCIENTIFIC COMMUNITY IN  
20 GENERAL, I WANT TO EXPRESS THANKS TO THE NOAA  
21 LEADERSHIP, AND ESPECIALLY ADMIRAL LAUTENBACHER, FOR  
22 HIS STRONG SUPPORT OF THESE ACTIVITIES. IT IS  
23 PARTICULARLY IMPORTANT. AND IT GOES WITHOUT SAYING  
24 THAT THE CLIMATE CHANGE ISSUES THAT WE'RE TALKING  
25 ABOUT RECOGNIZE NO NATIONAL BORDERS, AND WE WOULD NOT

0032

1 BE HERE TODAY WITHOUT OUR GLOBAL PARTNERS, CHIEF  
2 AMONG THEM, OF COURSE, THE WORLD METEOROLOGICAL  
3 ORGANIZATION, WMO. WMO IS NOT ONLY A CO-SPONSOR OF  
4 THIS CONFERENCE BUT, OF COURSE, ALSO OF THE IPCC.

5 AND OUR NEXT SPEAKER, DR. LEN BARRIE, IS  
6 THE DIRECTOR OF WMO'S ATMOSPHERIC RESEARCH AND  
7 ENVIRONMENT PROGRAM, WHICH INCLUDES THE ATMOSPHERIC  
8 CHEMISTRY COMPONENT OF THE GLOBAL CLIMATE OBSERVING  
9 SYSTEM, GLOBAL ATMOSPHERE WATCH. DR. BARRIE IS A  
10 RENOWNED ATMOSPHERIC SCIENTIST WHO HAS SERVED IN  
11 LEADERSHIP POSITIONS ON NUMEROUS CANADIAN AND  
12 INTERNATIONAL SCIENTIFIC EFFORTS FOCUSING ON  
13 ATMOSPHERIC CHEMISTRY, CONTAMINANTS, AEROSOLS, AND  
14 POLAR PROCESSES. HE IS A MEMBER AT LARGE OF THE

15 EXECUTIVE COMMITTEE OF THE INTERNATIONAL ASSOCIATION  
16 OF METEOROLOGY AND ATMOSPHERIC SCIENCE AND A FELLOW  
17 OF THE ACADEMY OF SCIENCE OF THE ROYAL SOCIETY OF  
18 CANADA.

19 DR. BARRIE.  
20 (APPLAUSE)

21 [Len Barrie's presentation has been removed from this file.]

24 (APPLAUSE)

25 DR. SPINRAD: THANK YOU, LEN, AGAIN. WE  
0040

1 REALLY APPRECIATE THE OUTSTANDING LEADERSHIP FROM WMO  
2 ON ALL OF THESE ACTIVITIES.

3 THIS NOW CONCLUDES THE INTRODUCTORY TALKS,  
4 AND WHAT I WOULD LIKE TO DO IS JUST GIVE ONE MORE  
5 ROUND OF APPLAUSE FOR OUR INTRODUCTORY SPEAKERS RIGHT  
6 NOW.

7 THANK YOU, GENTLEMEN.  
8 (APPLAUSE)

9 AND WITH YOUR FORBEARANCE AND THE GOOD WORK  
10 OF VINCE AND HIS AV TEAM, WE WILL JUST TAKE A SHORT  
11 BREAK. I WILL ASK OUR PANELISTS TO STEP FROM THE  
12 STAGE AS WE PREPARE FOR OUR KEYNOTE SPEECH. PLEASE  
13 DON'T LEAVE YOUR SEATS. BEAR WITH US FOR A FEW  
14 SECONDS AS WE MAKE A SLIGHT CHANGE HERE.

15 (BRIEF BREAK)

16  
17  
18  
19  
20  
21  
22  
23  
24  
25

0041

1 KEYNOTE SPEAKER

2

3 DR. SPINRAD: IT NOW REALLY IS MY DISTINCT  
4 PRIVILEGE TO INTRODUCE OUR KEYNOTE SPEAKER, DR. RALPH  
5 CICERONE, THE PRESIDENT OF THE UNITED STATES NATIONAL  
6 ACADEMY OF SCIENCES AND CHAIR OF THE UNITED STATES  
7 NATIONAL RESEARCH COUNCIL. AND OF COURSE, IT IS A  
8 REAL TREAT TO INTRODUCE DR. CICERONE BUT A SPECIAL  
9 TREAT FOR US IN THIS AUDIENCE BECAUSE WE HAVE THE  
10 UNIQUE CONFLUENCE OF EVENTS, I WOULD SAY, TO HAVE AS  
11 THE LEADER OF THE UNITED STATES NATIONAL ACADEMY OF  
12 SCIENCES SOMEBODY WHOSE OWN RESEARCH CAREER IS SO  
13 INTIMATELY TIED WITH THE MATERIALS AND SUBJECTS THAT  
14 WE'RE TALKING ABOUT HERE TODAY.

15 DR. CICERONE, OF COURSE, HAS A LONG HISTORY  
16 AS AN ATMOSPHERIC AND EARTH SCIENTIST, HAVING  
17 DIRECTED THE ANALYTICAL CHEMISTRY DIVISION AT THE  
18 NATIONAL CENTER FOR ATMOSPHERIC RESEARCH AND SERVED  
19 AS PRESIDENT OF THE AMERICAN GEOPHYSICAL UNION. HE

20 ALSO SERVED AS CHANCELLOR OF THE UNIVERSITY OF  
21 CALIFORNIA AT IRVINE, WHERE HE FOUNDED AND DIRECTED  
22 THE DEPARTMENT OF EARTH SYSTEM SCIENCE. HE HAS  
23 RECEIVED A VAST NUMBER OF AWARDS FOR HIS RESEARCH IN  
24 ATMOSPHERIC CHEMISTRY AND CLIMATE CHANGE, AND WAS  
25 RECOGNIZED ON THE CITATION FOR THE 1995 NOBEL PRIZE

0042

1 IN CHEMISTRY AWARDED TO UCI COLLEAGUE F. SHERWOOD  
2 ROWLAND. HE'S A GRADUATE OF THE UNIVERSITY OF  
3 ILLINOIS AND MIT, WHERE YOU WILL NOTE AS JUST ONE  
4 INDICATOR OF HIS SUPERIOR INTELLECT HE ALSO HAD TIME  
5 TO PLAY VARSITY BASEBALL AT MIT.

6 HE'LL TALK TO US TODAY ABOUT CLIMATE  
7 CHANGE: IT'S NOT JUST FOR SCIENTISTS.

8 PLEASE WELCOME HEARTILY DR. RALPH CICERONE.  
9 (APPLAUSE)

[Ralph Cicerone's presentation has been removed from  
this file.]

18 (APPLAUSE)

6 (BREAK TAKEN)

7 [Cicerone's Q&A session has been removed from this file.]

8

9

10

11

12

13

19

20

21

22

23

24

25

0079

1 SESSION 1

2 WHAT HAVE WE LEARNED FROM THE CO2 MEASUREMENT RECORD?

3

4 DR. SPINRAD: WELCOME BACK.

5 WE'RE GOING TO GET STARTED WITH SESSION 1

6 ENTITLED, "WHAT HAVE WE LEARNED FROM THE CO2  
7 MEASUREMENT RECORD?"

8 AND IN THIS PANEL, THE WAY WE WILL CONDUCT

9 IT IS I WILL BE PROVIDING UPFRONT SOME INTRODUCTIONS

10 OF OUR DISTINGUISHED PANELISTS; AND THEY WILL, IN

11 SEQUENCE, GIVE THEIR TALKS. AND WE WILL RESERVE TIME

12 AT THE END FOR Q-AND-A, WHEN THE PANELISTS WILL STAY

13 UP HERE, UP FRONT, FOR YOUR QUESTIONS. SO BE

14 THINKING OF THOSE QUESTIONS.

15 AGAIN, WE'LL GO THROUGH THE SAME DRILL FOR

16 QUESTIONS, USING THE MIKES IN THE CENTER AISLE AND

17 ASKING FOLKS TO INTRODUCE THEMSELVES WHEN THEY ASK  
18 QUESTIONS.

19 SO, AS I SAID, THIS SESSION IS GOING TO  
20 PROVIDE AN OVERVIEW OF WHAT WE'VE LEARNED FROM THE  
21 50-YEAR GLOBAL CARBON DIOXIDE RECORD. MEASUREMENTS  
22 FROM THIS INCREASINGLY SOPHISTICATED AND GLOBAL  
23 NETWORK HAVE ENABLED US TO DRAW CONCLUSIONS ABOUT THE  
24 CARBON CYCLE. WE'RE GOING TO COVER WHAT WE NOW KNOW  
25 AND WHAT OTHER GASSES CAN TELL US ABOUT THE ORIGIN

0080

1 AND FATE OF CARBON DIOXIDE.

2 WE HAVE DRS. RALPH KEELING, PIETER TANS,  
3 AND MARTIN HEIMANN, WHO HAVE SPENT THEIR PROFESSIONAL  
4 LIFETIMES INVESTIGATING THE TRENDS AND DISTRIBUTIONS  
5 OF ATMOSPHERIC CO<sub>2</sub>. ALL HAVE SOME LINK TO DAVID  
6 KEELING: RALPH AS HIS SON; AND PIETER AND MARTIN AS  
7 HIS POST-DOCS.

8 RALPH KEELING, A PROFESSOR OF GEOCHEMISTRY  
9 AT THE SCRIPPS INSTITUTION OF OCEANOGRAPHY, UC  
10 SAN DIEGO, DIRECTS SCRIPPS' PROGRAM FOR MEASURING CO<sub>2</sub>  
11 IN THE ATMOSPHERE. HE IS ALSO A LEADING INVESTIGATOR  
12 OF THE GLOBAL OXYGEN CYCLE AND KNOWN FOR HIS PRECISE  
13 MEASUREMENTS AND ANALYSIS TECHNIQUES. SINCE 1989,  
14 HIS GROUP HAS MEASURED CHANGES IN ATMOSPHERIC OXYGEN  
15 LEVELS FROM AIR SAMPLES COLLECTED AT STATIONS AROUND  
16 THE WORLD.

17 PIETER TANS IS A SENIOR SCIENTIST AT NOAA'S  
18 EARTH SYSTEM RESEARCH LAB, WHERE HE LEADS THE CARBON  
19 CYCLE GREENHOUSES GASSES GROUP. THIS GROUP MAINTAINS  
20 A COOPERATIVE GLOBAL ATMOSPHERIC OBSERVING NETWORK,  
21 PRODUCING THE MOST WIDELY USED DATA OF ATMOSPHERIC CO<sub>2</sub>  
22 AND SEVERAL OTHER GREENHOUSE GASSES. PIETER, ALONG  
23 WITH INEZ FUNG OF THE UNIVERSITY OF CALIFORNIA AT  
24 BERKELEY, AND TARO TAKAHASHI OF LAMONT-DOHERTY,  
25 REVOLUTIONIZED RESEARCH ON CO<sub>2</sub> WHEN THEY DISCOVERED A

0081

1 LARGE UPTAKE OF CO<sub>2</sub> BY TERRESTRIAL ECOSYSTEMS IN THE  
2 NORTHERN HEMISPHERE. THIS SINK PARTIALLY OFFSETS THE  
3 EMISSIONS FROM THE BURNING OF FOSSIL FUELS.

4 OVER THE LAST THREE DECADES, MARTIN HEIMANN  
5 HAS ANALYZED AND MODELED THE GLOBAL CARBON CYCLE AND  
6 ITS INTERACTION WITH THE PHYSICAL CLIMATE SYSTEM.  
7 KNOWN FOR HIS MODELING CONTRIBUTIONS TO UNDERSTANDING  
8 CO<sub>2</sub> UPTAKE AND EMISSIONS, DR. HEIMANN, THE DIRECTOR OF  
9 THE MAX-PLANCK INSTITUTE FOR BIOGEOCHEMISTRY, IS  
10 CURRENTLY WORKING TO EXPAND GLOBAL MEASUREMENT  
11 SYSTEMS TO PLACES LIKE SIBERIA AND CABO VERDE IN  
12 ORDER TO IMPROVE THE ESTIMATES OF THESE MODELS.

13 LET'S GO AHEAD AND GET STARTED, AND WE'RE  
14 GOING TO START WITH DR. KEELING.

13

(APPLAUSE)

[Ralph Keeling's presentation has been removed from this file.]

14 DR. SPINRAD: AGAIN, WE'LL SAVE QUESTIONS  
15 FOR AFTER ALL THREE OF THE TALKS.

16  
7 (APPLAUSE)

[Pieter Tans' presentation has been removed from this file.]

8  
25 (APPLAUSE)  
0132

[Martin Heimann's presentation has been removed from this file.]

1 DR. SPINRAD: I WANT TO THANK ALL THREE  
2 SPEAKERS.  
3 WE ARE RUNNING UP AGAINST THE CLOCK HERE,  
4 BUT I DO WANT TO GIVE FOLKS A CHANCE TO RAISE  
5 QUESTIONS.  
6 I REMIND FOLKS THAT IMMEDIATELY AFTER THIS  
7 WE'LL BE GOING TO LUNCH, WHERE YOU CAN CORNER THE  
8 SPEAKERS IN MORE DETAIL.  
9 BUT LET'S OPEN IT FOR ONE OR TWO QUESTIONS  
10 AT THIS POINT IF THERE ARE ANY FROM THE AUDIENCE.  
11

[Q&A for Keeling, Tans and Heimann has been removed from this file.]

3 (APPLAUSE)  
4 I WILL REMIND FOLKS THAT LUNCH WILL BE  
5 SERVED IN THE CRYSTAL BLUE AREA, AND WE WILL  
6 RECONVENE AT 1:15, WHEN WE TALK ABOUT ASSESSING  
7 IMPACTS AND URGENCY.

8  
9  
10  
11  
12  
13  
14  
15  
16  
17  
18  
19  
20  
21  
22  
23

ASSESSING IMPACTS AND URGENCY

3

4 DR. SPINRAD: AS PEOPLE ARE COLLECTING, I  
5 HAVE ONE HOUSEKEEPING REPORT TO PROVIDE, AND IT HAS  
6 TO DO WITH DINNER TONIGHT AND THE FORECAST FROM THE  
7 NATIONAL WEATHER SERVICE, WHICH WE OBVIOUSLY TRUST  
8 IMPLICITLY, SUGGESTS THAT WE'RE GOING TO HAVE TO MOVE  
9 THE DINNER INDOORS; AND MY UNDERSTANDING IS IT WILL  
10 BE IN THIS ROOM. BECAUSE OF THE SCHEDULE FOR OUR  
11 TALKS THEN, WE WILL BE DELAYING THE START OF DINNER  
12 UNTIL 7:30 TONIGHT. I WILL TRY TO REMEMBER TO REMIND  
13 YOU OF THAT AGAIN, BUT KEEP THAT IN MIND, SO WHEN  
14 WE'RE DONE WITH THE SESSIONS TODAY, IT WILL BE 7:30  
15 IN THIS ROOM, DINNER.

16

17 WE'RE GOING TO GO AHEAD AND GET STARTED  
18 THEN WITH THIS SESSION 2 ON ASSESSING IMPACTS AND  
19 URGENCY.

19

20 WE'VE GOT A SET OF EXCITING TALKS COMING UP  
21 ALL AFTERNOON, AND THIS NEXT ONE IS A NATURAL  
22 FOLLOW-ON TO THE PRESENTATIONS THAT WE HAD THIS  
23 MORNING AND A WONDERFUL LEAD-IN TO THE CONTINUED  
24 DISCUSSIONS WE'LL HAVE, ESPECIALLY AS WE START  
25 BRINGING IN SOME OF THE POLICY AND INDUSTRY  
PERSPECTIVES.

0138

1

2 INTRODUCING THIS SESSION, IMMEDIATELY AFTER  
3 MY OPENING COMMENTS, WILL BE DR. SANDY MACDONALD.  
4 SANDY IS THE DIRECTOR OF NOAA'S EARTH SYSTEM RESEARCH  
5 LAB; IN FACT, THE FIRST DIRECTOR OF NOAA'S EARTH  
6 SYSTEM RESEARCH LAB.

6

7 YOU'VE SEEN A LOT OF REFERENCES TO ESRL AND  
8 THE WORK THAT ESRL HAS BEEN DOING. SANDY IS GOING TO  
9 BE FRAMING HIS SESSION IN THE CONTEXT OF  
10 INTERPRETING IMPACT PROBABILITIES.

10

11 FOLLOWING SANDY, DR. RICHARD SOMERVILLE, A  
12 DISTINGUISHED PROFESSOR EMERITUS AT THE SCRIPPS  
13 INSTITUTION OF OCEANOGRAPHY, WILL SPEAK TO THE  
14 ENVIRONMENTAL ISSUES SURROUNDING CLIMATE CHANGE.  
15 DR. SOMERVILLE WAS A COORDINATING LEAD AUTHOR FOR  
16 WORKING GROUP I OF THE IPCC ASSESSMENT, AND HE BRINGS  
17 TO BEAR A BROAD PERSPECTIVE AND IS OFTEN FOUND TAKING  
18 VERY GREAT PAINS TO CLARIFY THE CLIMATE CHANGE ISSUES  
19 TO A RANGE OF AUDIENCES.

19

20 FOLLOWING DR. SOMERVILLE, WE HAVE VICE  
21 ADMIRAL PAUL GAFFNEY, WHO ADDRESSES THE  
22 SELDOM-DISCUSSED BUT NO-LESS IMPORTANT ASPECT OF  
23 CLIMATE CHANGE; THAT, OF COURSE, BEING INCREASED  
24 THREATS TO NATIONAL AND GLOBAL SECURITY. ADMIRAL  
25 GAFFNEY IS THE PRESIDENT OF MONMOUTH UNIVERSITY. HE  
HAS BEEN A FRIEND OF MINE FOR ACTUALLY MANY DECADES

0139

1

2 NOW; AND OF NOTE, HE WAS THE HIGHEST RANKING NAVAL  
3 METEOROLOGY AND OCEANOGRAPHY OFFICER IN UNITED STATES  
HISTORY. THE ADMIRAL WAS THE CO-AUTHOR OF "

4 NATIONAL SECURITY AND THE THREAT OF CLIMATE CHANGE,"  
5 ALONG WITH TEN OTHER FLAG OFFICERS. HE'S A GRADUATE  
6 OF THE U.S. NAVAL ACADEMY, FORMER PRESIDENT OF THE  
7 NATIONAL DEFENSE UNIVERSITY, AND HAS BEEN THE  
8 PRESIDENT OF MONMOUTH SINCE 2003.  
9 I WILL NOW TURN THE PANEL OVER TO SANDY FOR  
10 SOME OF THE INTRODUCTORY COMMENTS.  
11

[Sandy MacDonald's presentation has been removed from  
this file.]

8 (APPLAUSE)

9 [Richard Somerville's presentation has been removed from  
this file.]

[VADM Gaffney's presentation has been removed from this  
file.]

(APPLAUSE)

[Q&A for Somerville and Gaffney has been removed from  
this file.]

7 (APPLAUSE)

8 AND REMIND FOLKS THAT WE'RE GOING TO TAKE A  
9 BIT SHORTER BREAK THAN IS SCHEDULED SO THAT WE CAN  
10 START BACK ON TIME. LET'S COME BACK AT 3:15 TO TALK  
11 ABOUT BUSINESS OPPORTUNITIES, CHALLENGES AND RISKS.

12 BEFORE YOU BOLT, LET ME REMIND YOU DINNER  
13 WILL BE LATER, 7:30. SO THOSE OF YOU WHO ARE WORRIED  
14 ABOUT, PERHAPS, HAVING ENOUGH TIME TO SEE THE  
15 POSTERS, YOU SHOULD HAVE TIME AFTER WE FINISH AND  
16 BEFORE DINNER. SO WE WILL BREAK UNTIL 3:15.

17 THANK YOU.

18 (BREAK TAKEN)

SESSION 3

2

BUSINESS CHALLENGES, OPPORTUNITIES AND RISKS

3

4

DR. SPINRAD: OKAY, WE'RE GOING TO GET  
5 STARTED HERE AGAIN.

6

7

AS PEOPLE ARE SETTling IN, I WANT TO OFFER  
8 A SPECIAL THANKS TO OUR AUDIOVISUAL TEAM, WHO HAVE  
9 SURVIVED DEAFENING THUNDER, POWER OUTAGES, AND AT  
LEAST ONE MINOR FLOOD, FOR THOSE OF YOU WHO NOTICED.

10 WE SAID WE WERE GOING TO BE RECORDING ALL OF THIS.  
11 WE TRIED TO GUARANTEE THERE WOULD BE NO LEAKS DURING  
12 THIS MEETING, BUT WE'VE HAD AT LEAST ONE THAT I COULD  
13 TELL UP HERE, AND WE'VE MANAGED TO MAKE IT THROUGH.  
14 SO, VINCE AND JAMES, GOOD JOB. WELL DONE. KEEP IT  
15 UP.

16 (APPLAUSE)  
17 THE OTHER ANNOUNCEMENT IS THAT, ONCE AGAIN,  
18 LET ME REMIND YOU THAT DINNER WILL BE AT 7:30. THERE  
19 IS ONE MORE PIECE OF THE INSTRUCTIONS FOR DINNER: ON  
20 THE BACK OF YOUR BADGE, SOME OF YOU MAY HAVE  
21 HANDWRITTEN A DINNER TABLE NUMBER. PLEASE NOTE THAT.  
22 IF YOU DON'T HAVE ANYTHING ON THE BACK OF YOUR BADGE,  
23 YOU ARE WELCOME TO EAT AT ANY OF THE TABLES WITH  
24 ANYONE YOU WANT. BUT IF YOU DO HAVE A NUMBER ON  
25 THERE, THAT MEANS YOU'VE GOT ASSIGNED SEATING FOR

0203

1 DINNER.

2 OKAY. AS WITH THE LAST SESSION, I WILL BE  
3 DOING SOME INTRODUCTIONS, AND THEN I WILL TURN IT  
4 OVER TO FRED PALMER, WHOM I WILL INTRODUCE IN JUST A  
5 MINUTE, FROM PEABODY ENERGY, WHO WILL BE SERVING AS  
6 THE MODERATOR FOR THIS SESSION, INCLUDING THE Q-AND-A  
7 AT THE END OF THE FORMAL PRESENTATIONS.

8 WE'RE SHIFTING GEARS NOW A LITTLE BIT, AND  
9 IN THIS NEXT SECTION AND IN THE PRESENTATION AFTER  
10 THIS BY DR. SOCOLOW, YOU WILL HAVE A CHANCE TO LOOK  
11 AT THE CHALLENGES, RISKS, AND OPPORTUNITIES IN  
12 PROVIDING SAFE ENERGY FOR THE FUTURE.

13 THE SESSION BEFORE US IS GOING TO CONSIDER  
14 THE ISSUE FROM THE PERSPECTIVE OF HOW TO SUPPLY LARGE  
15 AMOUNTS OF ENERGY WITHOUT CONTRIBUTING TO GLOBAL  
16 WARMING. THE PARTICIPANTS ALL REPRESENT LARGE  
17 SECTORS OF ENERGY IN THE UNITED STATES AND THE WORLD,  
18 AND IT REALLY IS A REMARKABLE LIST OF PANELISTS, AS  
19 YOU'LL SEE WHEN I MAKE THESE INTRODUCTIONS.

20 FRED PALMER, WHO IS GOING TO BE INTRODUCING  
21 THE SESSION, IS THE SENIOR VICE PRESIDENT OF  
22 GOVERNMENT RELATIONS AT PEABODY ENERGY, ONE OF THE  
23 CO-SPONSORS OF THIS EVENT. PEABODY IS THE LARGEST  
24 SUPPLIER OF COAL IN THE UNITED STATES AND A MAJOR  
25 PRODUCER OF COAL FOR MUCH OF THE WORLD.

0204

1 MR. PALMER HAS RECENTLY RETURNED FROM CHINA  
2 AND INDIA, WHERE HE HAS WITNESSED FIRSTHAND THE  
3 UNBELIEVABLE ACCELERATION OF DEMAND FOR ENERGY IN THE  
4 THIRD WORLD.

5 TWO ADDITIONAL SPEAKERS, MS. HELEN HOWES OF  
6 EXELON AND MR. BRUCE BRAINE OF AMERICAN ELECTRIC  
7 POWER, SIMILARLY COME FROM MAJOR SUPPLIERS OF ENERGY,  
8 YET HAVE DIFFERENT PERSPECTIVES AS TO HOW TO APPROACH  
9 THE PROBLEM.

10 EXELON, REPRESENTED TODAY BY MS. HOWES, THE  
11 VICE PRESIDENT FOR CORPORATE ENVIRONMENT, HEALTH, AND  
12 SAFETY, IS THE LARGEST SUPPLIER OF NUCLEAR ENERGY IN  
13 THE UNITED STATES, ACCOUNTING FOR 20 PERCENT OF U.S.  
14 NUCLEAR POWER, ITSELF EQUAL TO ONE-FIFTH OF THE U.S.

15 TOTAL ENERGY SUPPLY.  
16 AMERICAN ELECTRIC POWER SERVICES  
17 CORPORATION, REPRESENTED BY MR. BRUCE BRAINE, THE  
18 VICE PRESIDENT OF STRATEGIC POLICY ANALYSIS, SUPPLIES  
19 ENERGY TO PARTS OF 11 STATES IN THE UNITED STATES AND  
20 IS THE LARGEST SINGLE SUPPLIER OF U.S. ENERGY.  
21 IN ADDITION TO THESE SPEAKERS, WE ALSO HAVE  
22 CHUCK KUTSCHER, FROM THE NATIONAL RENEWABLE ENERGY  
23 LAB, AVAILABLE AS PART OF THE PANEL DISCUSSION  
24 FOLLOWING THE PRESENTATIONS. DR. KUTSCHER WILL BE  
25 GIVING A PRESENTATION ON FRIDAY'S SESSION ON

0205

1 MITIGATION OPTIONS AND WILL SIT IN ON THIS PANEL TO  
2 FIELD ANY QUESTIONS REGARDING RENEWABLE ENERGY THAT  
3 MAY ARISE.

4 SO WE HAVE THE BIG PLAYERS IN THIS ROOM IN  
5 THIS PANEL TODAY, AND WE THANK THEM VERY MUCH FOR  
6 TAKING THE TIME OUT OF THEIR BUSY SCHEDULES TO  
7 PARTICIPATE IN THIS SYMPOSIUM; AND WITH NO FURTHER  
8 ELABORATION, I'M GOING TO GIVE YOU FRED PALMER, WHO  
9 WILL LEAD THIS SESSION.

10 FRED.

11 (APPLAUSE)

12

[Fred Palmer's presentation has been removed from this  
file.]

(APPLAUSE)

[Braine's presentation has been removed from this file.]

10 (APPLAUSE)

4

[Helen Howes' presentation has been removed from this  
file.]

(APPLAUSE)

15

[Q&A for Braine and Howes has been removed from this  
file.]

DR. SPINRAD: WITH THAT COMMENT, WE'RE

0266

1 GOING TO HAVE TO WRAP UP HERE. I WOULD LIKE TO ASK  
2 THE AUDIENCE AGAIN TO THANK THIS WONDERFUL PANEL.

3 (APPLAUSE)

4 WHILE THE PANEL IS STEPPING DOWN, I WANT TO  
5 POINT OUT THAT THIS IS THE VALUE OF A CONFERENCE LIKE  
6 THIS, TO GET THIS KIND OF BROAD SET OF PERSPECTIVES,  
7 AND I THINK YOU CAN SEE THAT WE HAVE WORKED HARD TO  
8 TRY TO GET THE DIVERSE PERSPECTIVES ALL IN THE  
9 CONTEXT OF THIS VERY IMPORTANT SET OF ISSUES  
10 ASSOCIATED WITH CLIMATE CHANGE.

11 ONE ANNOUNCEMENT, IF I CAN. YOU MAY HAVE  
12 NOTICED THE EXHIBIT AND POSTER AREA HAS BEEN SHUT

7 AGAIN.  
8 (APPLAUSE)  
9 IF I CAN ASK YOU FOLKS TO TRY AND CLEAR THE  
10 ROOM AS SOON AS YOU CAN SO THEY CAN SET THIS UP FOR  
11 DINNER. ONCE AGAIN, 7:30 IN THIS ROOM FOR OUR  
12 DINNER.  
13  
14  
15  
16  
17  
18  
19  
20  
21  
22  
23  
24  
25
